# TouchTunes
# BAR CONNECT FOR BAR STAFF

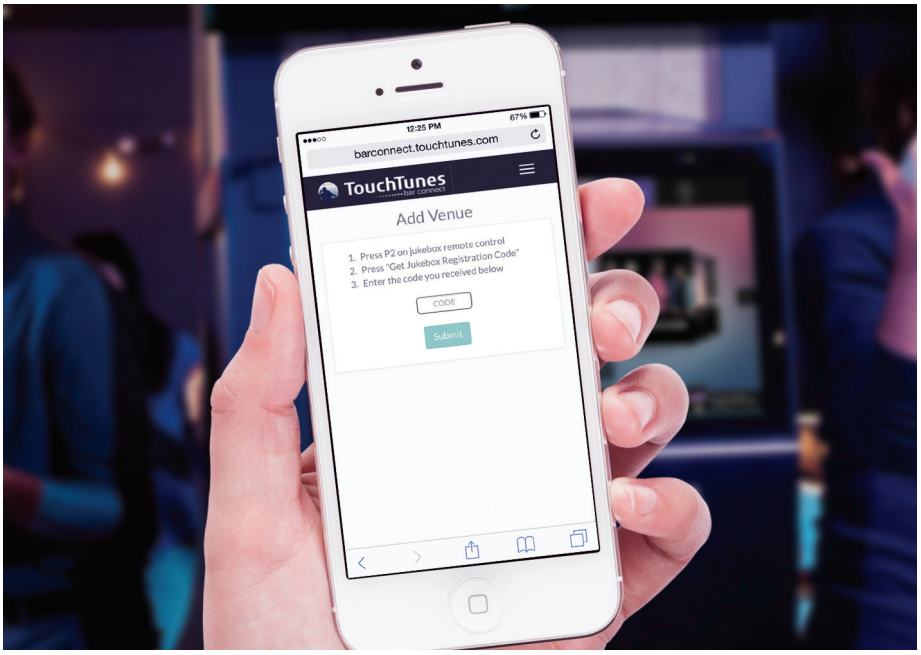
Bar Connect is a mobile optimized website that is used by bar staff to manage some of TouchTunes' newest interactive services. Specifically, Bar Connect can be used to manage:

- Attract TV Venue Messaging
- Mobile Check-In Messaging
- Staff Picks

Before using Bar Connect, a user must verify that they work at a TouchTunes location and link their TouchTunes mobile user ID to the location's jukebox. This is easily accomplished by following the registration process below:

1. Sign into Bar Connect at **https://barconnect.touchtunes.com** using your TouchTunes Mobile app username and password. (If you log in to the TouchTunes app using Facebook, use your Facebook username and password.)
2. Select "Add Venue"
3. Press the P2 button on the jukebox remote.
   - A dialog box will appear on the jukebox screen.
   - Note: Having access to the jukebox remote verifies that the user works at the bar.
4. On the jukebox screen, press "Get Registration Code".
5. Enter the code that appears on the jukebox into Bar Connect and hit Submit.

You are now registered with Bar Connect and linked to the location. Select the service you want to manage from the menu. Note that due to system compatibility, not all services are available at all locations.



## BAR CONNECT AND BAR REWARDS

- Bar Rewards is the TouchTunes bar staff loyalty and engagement program
- Bar Connect is a tool for managing services that help bar staff connect with their patrons
- A user must register with Bar Connect at a location to have access to its services for that location
- When someone registers with Bar Connect, they will be automatically enrolled into the Bar Rewards program
